

## Position switch with safety function

### ES 411 WHL 1Ö/1S

Material number: 1046657 (Material number old: 43016001)

#### Features/Options:

- Metal enclosure
- Slow action  $\ominus$ , change-over contact with double break
- 3 cable entries M16 x 1.5
- Actuator: Long roller lever with collar WHL
- Actuating speed max. 0.5 m/s with a vertical actuating angle of  $\alpha = 40^\circ$  and  $\beta = 30^\circ$

- Wear-resistant plastic roller
- Actuator can be repositioned by 4 x 90°
- Watertight collar for protection against penetration of dirt

#### Notes

- Actuation from the left should be avoided since this reduces the mechanical life of the position switch.
- With metal roller available on request
- When used as safety switch, secure the enclosure against slipping with appropriate means, e.g. pinning.
